Reward Items

Item	Points	Item	Points	Item	Points
D.N.A. Breed I.D. Kit	1,625	Pet Gear Car Seat (Small)	1,750	Pet Lover Eureka Vacuum	3,125
Carmines Dinner for 2	5,000	Smith & Wollensky for 2	8,750	Atlantis Resort 3 Nights	37,500

Day Care Preview Tab

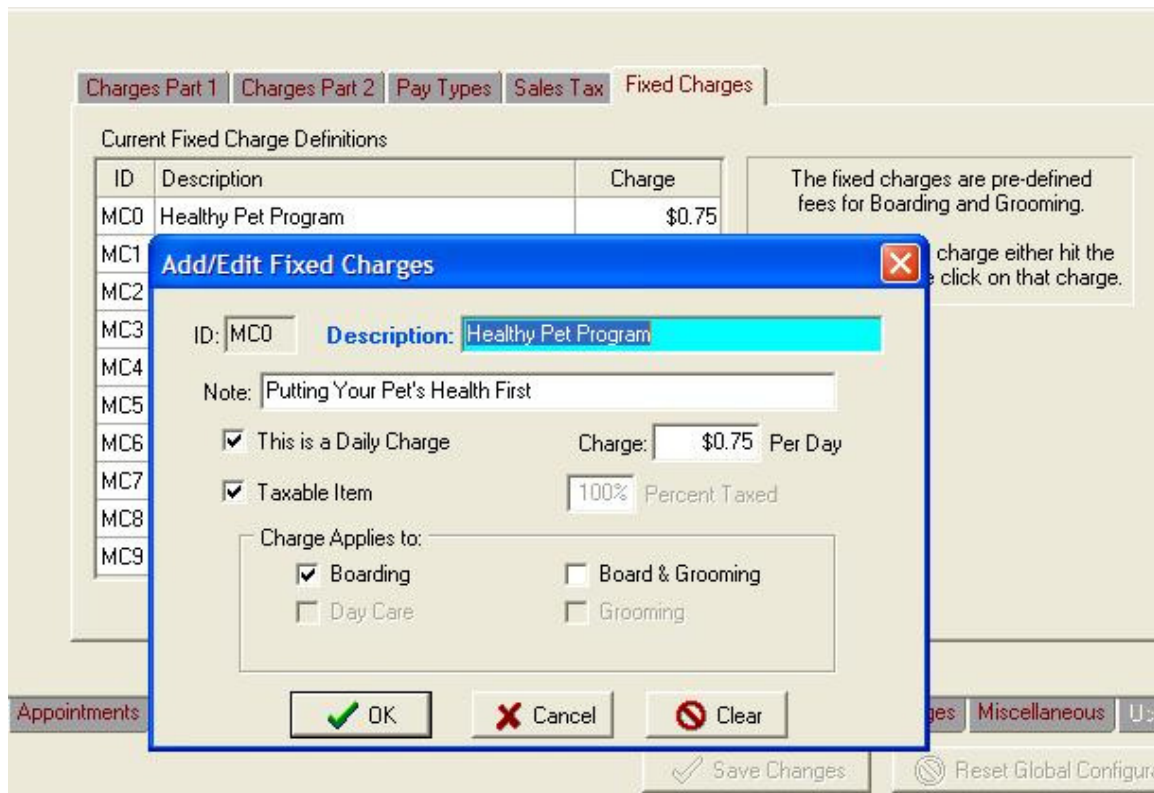

Shows the total number of dogs each day for a six (6) week period. Clicking on any day in the preview will bring up the day care/service schedule for that day.

Supports up to Four (4) Pet Detect I.D. Collar Printers

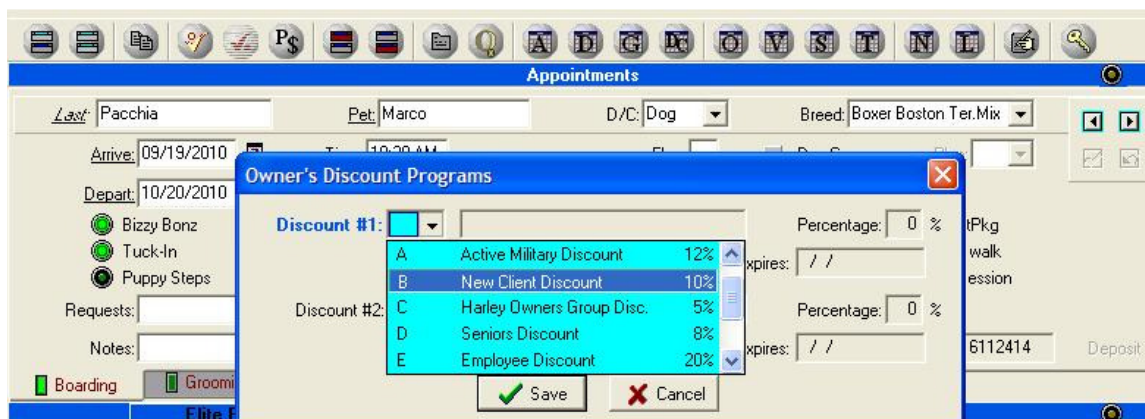

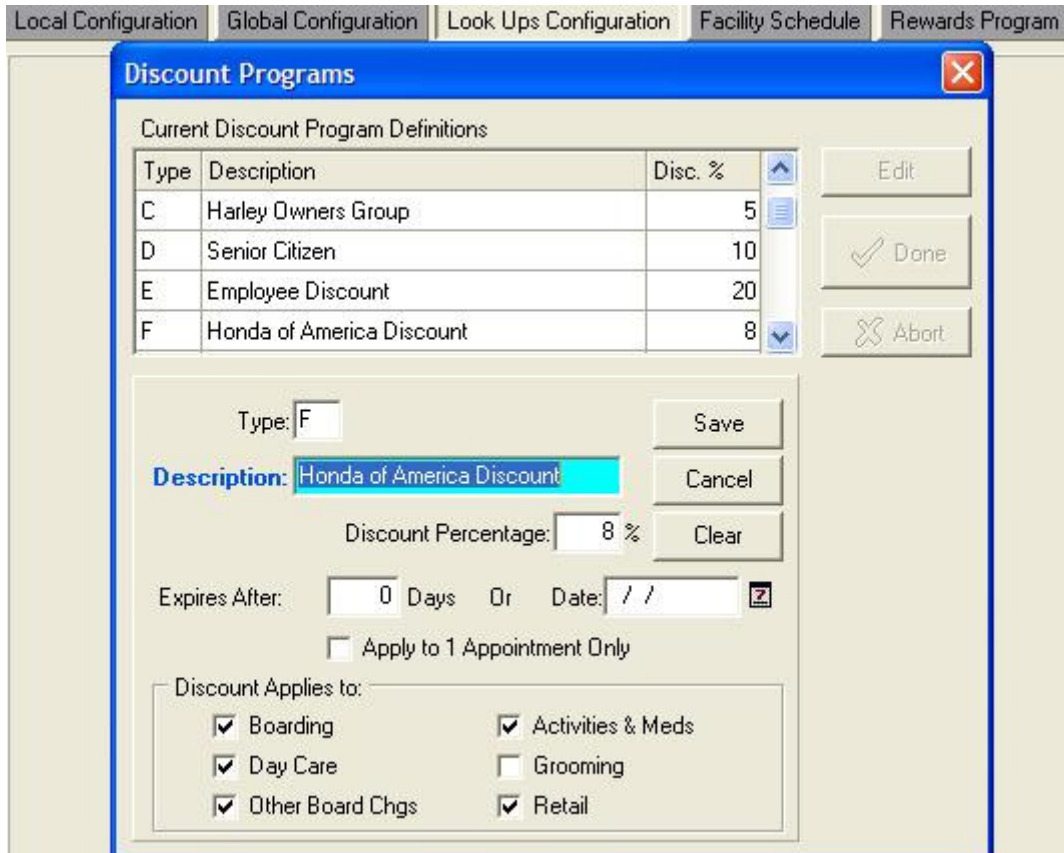

Now supports up to Four (4) Pet Detect I.D. Collar Printers – Option allows for using one color (i.e. yellow) for Boarding dogs, another color for Day Care dogs, another color (i.e. red) for dogs on Medication, and another color for dogs that requires Special Monitoring.

Auto Charge Capability

Automatic inclusion of mandatory charges. If you have a Healthy Pet Program or any type of pet insurance program that you require for all boarding pets, this feature will automatically insert those charges. The charge may be a fixed price i.e. \$7.00 per visit or a daily charge i.e. \$0.75 per day.

Owner Discount Programs – These are owner discounts and will automatically be applied to every transaction for that owner. These discount plans are user defined and can be applied to either - **Boarding, Day Care, Activities, Grooming, Retail** or any combination of these. They can be set to expire after a set number of days or after a certain date. They can also be set to “Apply to 1 Appointment Only”. This is perfect if you offer a New Client Discount. These discount plans can also be used for club membership. You might have a club called Tail Waggers for frequent boarders. Members pay a fee (\$1500.00, \$2000.00, or \$2500.00 depending upon your boarding rates) at the beginning of each year and receive a fifteen percent discount on their boarding.

WHAT'S CHANGED

Twice the profile space for **Groom Profiles, Histories, and Groomer Worksheets**

Compatibility Code has been increased to three (3) characters and appears on Day Care, Arrival Calendar, and End of Day Reports.

Option to Run Activity Reports for Departures Only. This is to help eliminate the situation where the pet owner comes to pick up their pet before it's had its activities.

Option for Feeding Labels, Feeding Reports, and Med Reports to print for those pets that are actually checked in at the time the report is run.

Kennel Run Cards will start printing lower on the page. This will allow clipboards to grab the run card without clamping over the name.

Creation, Editing, and Deletion Logs now work across any combination of operating systems.

Credit Card entry has been separated from the confidential tab. Employees can only view the type of card, the last four (4) digits of card number, and the expiration date. They may edit the expiration date or add a new card. They can't view or edit an existing card number.

The screenshot displays the 'Appointments' software interface. The main window shows a pet profile for 'Haag' (Pet: Gandalf, D/C: Dog). The appointment details include 'Arrive: 09/22/2010' and 'Depart: 09/29/2010'. There are several service options with radio buttons: Bizzy Bonz, Tuck-In, Puppy Steps, CP, Dull, and Day. Below these are fields for 'Requests:' and 'Notes:'. At the bottom, there are three tabs: 'Boarding', 'Grooming', and 'Medic'. A 'Credit Card Info' dialog box is overlaid on top, containing the following information: 'Card Type: MasterCard' with a 'New Card' button, 'Card Number: #### #### #### 5719', and 'Expires: 6/11'. The dialog box has 'OK' and 'Close' buttons at the bottom.

Print Pending Appointments – Print out a list showing all future boarding, day care, and grooming appointments for an owner.
